# About REA Envirohealth International

## Services

Based in Barbados, REA Envirohealth International provides occupational and environmental health and safety consulting and training services to clients in the Caribbean, South and Central America.

Our Range of Occupational Services Include:

- Management Advisory Services
- Safety Committee Member Certification
- On-going Safety Committee In-house Support
- Workplace Inspections and Risk Assessments
- Indoor Air Quality (IAQ) Monitoring, Non-ionising Radiation Testing
- Fibre Analysis and Asbestos Screening, Toxic Gas Detection
- Thermal Comfort Surveys & Heat Stress Assessment
- Area Noise Monitoring of Chemical Exposures via Urine or Blood Analysis
- Construction Site Safety

Our Environmental Services Include:

- Soil and Surface Water Analysis
- Near-shore Marine Pollution Assessment & Effluent Testing
- Ambient Air Monitoring (Dust, Chemicals, Micro-Organisms, etc.)
- Community Noise Assessments
- Provide Data for Environmental Impact Assessments (EIAs)

REA Envirohealth International also acts as a distributor of the QUEST® line of products which are manufactured by 3M Quest Technologies of the USA, a world leader with over 25 years experience in the manufacture of precision industrial hygiene equipment to monitor and test air quality, dust, VOCs, noise and other factors which may affect our occupational environment.

Further, we are also distributors for LEVITT SAFETY LIMITED 2000 of Canada and SKC Inc. of the USA, both of which are well established and reputable suppliers of safety, health and hygiene products.

Additionally REA Envirohealth International has forged strategic working relationships with other service providers in related disciplines, in order to offer a more comprehensive range of services. In short, REA Envirohealth International is a team of competent, qualified and well connected Professional Consultants!

## Training

Since 1994, REA has provided workplace health, safety, and environmental training to over 20,000 people in more than 2000 organizations throughout North America. In 2006, REA Envirohealth International launched its programme of workplace health, safety and environmental training in Barbados. For 2015 and in response to our clients' needs, REA Envirohealth International is pleased to offer a more diversified programme of scheduled training to promote health and safety in the workplace and protection of the environment.

REA Envirohealth International is registered by the Barbados Accreditation Council as an approved tertiary training institution. As a result of this registration we are considered by the Technical and Vocational Educational and Training (TVET) Council as a recognized training provider. Occupational Safety and Health is among the present priority areas identified by TVET so this allows employers utilising our courses to access the Employment and Training Fund (ETF) which will cover up to 75% of the cost of training.

## Customised Training

Need training in an EHS subject not listed here? Let us know, and we'll create and deliver a programme for you. We will also tailor our training to address your specific needs, requirements, and internal policies and procedures. REA Envirohealth International provides in-house training in most of the EHS subject areas typically required by organizations. Contact us for information.

**Registrant cancellations and substitutions.** By registering, you are agreeing to the following terms: Registrant cancellations received up to ten working days before the session are refundable, minus a \$95.00 BDS registration service charge. After that, registrant cancellations are subject to the full session fee, and you are responsible for payment even if you do not attend. Substitutions and rescheduling for alternate course dates may be made up to ten days before the course without penalty. We reserve the right to cancel or reschedule sessions with two business days notification, and in such event, our liability is limited to a full refund of the session fee.

**Training venue.** Courses are held in our "training room" or at various venues in Barbados offering convenient locations, suitable training facilities, courteous staff, and ample parking (however some locations may only offer paid parking). After enrollment you will be advised of the training venue and location, with your session confirmation notice.

**Registration begins at 8:00 a.m.** On arrival at the training venue, please check for the directory for the exact location of the session. Our staff will greet you and provide

you with course materials, and provide a facility orientation. Full day course sessions begin at 8:30 am and conclude by 4:30 pm, and lunch and refreshments are included in the registration fee. Dependant on timing, there may be a working lunch, **Tape recording.** Courses are copyrighted by Resource Environmental Associates Limited or its affiliates. No unauthorized audio or video recording is permitted.
